## FIGURE 5 - For use with Question 1

'Hurricane Irma hit several islands in the Caribbean on 6 September 2017, with devastating consequences for the local population. On Sint Maarten, it has so far resulted in eight deaths. Officials say that 95\% of the island has been destroyed and the international airport and harbour have been seriously damaged. Power, running water and most communications have been knocked out by this powerful storm.'

## 11

The image, on page 10, shows an industrial location, buildings are damaged and areas are flooded. There are a large number of shipping containers that have toppled over or that have been swept untidily into parts of the location.

FIGURE 8 - For use with Question 2
FIGURE 8 consists of two images.

The image shows bare rock and earth-covered valleys. The areas to the sides of this are flat and contain a number of trees and greenery.

15

The image shows an aerial view of a large forest. The centre of the forest has no trees, instead there is bare ground, roadways with vehicles on and lakes.
