

Scheme of work (2019)

Medieval England – the reign of Edward I, 1272-1307

This resource provides guidance for teaching Medieval England – the reign of Edward I, 1272-1307 depth studies topic from our new GCSE in History. We hope the suggested activities will support your teaching of this topic. It is intended as a guide only and not as a prescriptive approach.

This scheme of work enables students to understand how the government of Medieval England worked, what the role of the king was and how Parliament developed during this period. The scheme of work aims to develop students' knowledge on the medieval period by investigating the role of the economy, education and the legal system as well as looking at Edward's military campaigns in Wales and Scotland. It also included details of how the specified site for the historic environment in 2019 can be incorporated into your teaching of this unit.

Assumed coverage

This teaching and learning plan is intended for 30 classroom lessons, each of one hour. It doesn't include homework learning time, but it covers three revision and assessment lessons.

There are three parts to this scheme of work: part one concentrates on Edward's government, part two on life in Medieval England and part three on his military campaigns. There are specific lessons dedicated to the historic environment with a focus on the specified site for a specific year.

Assessment

Assessment points in the learning activity column indicate possible assessment opportunities. These could be short tests of about ten minutes (exam-style questions, short factual tests, source evaluation) or longer assessments (exam-style questions).

Resources

Research exercises assume students have access to a textbook(s) and/or internet. You can supplement textbook(s) with other sources.

When considering primary and secondary evidence, it is worth remembering that the assessment covers students' ability to analyse and evaluate an interpretation (AO4). However, as part of your teaching you may wish to look at contemporary sources (AO3) as well.
