

Scheme of work (2020)

Restoration England, 1660-1685

This resource gives you one example of a scheme of work for teaching Restoration England 1660-1685 depth study topic from our new GCSE in History. We hope the suggested activities will support your teaching of this topic. It is intended as a guide only and not as a prescriptive approach.

This scheme of work enables students to understand how England changed during the reign of King Charles II from an economic, religious, political, social and cultural standpoint. It also included details of how the specified site for the historic environment in 2020 can be incorporated into your teaching of this unit. The specified site is the Dutch Raid on the Medway.

Assumed coverage

This teaching and learning plan is intended for 30 classroom lessons, each of one hour. It doesn't include homework learning time.

The plan is divided into the three parts: part one concentrates on the monarchy, parliament, plots and life in Charles II's court; part two explores life in Restoration England and part three looks at land, trade and war. There are also specific lessons dedicated to the historic environment.

Assessment

Assessment points in the learning activity column indicate possible assessment opportunities. These could be short tests of about ten minutes (exam-style questions, short factual tests, source evaluation) or longer assessments (exam-style questions).

Resources

Research exercises assume students have access to a textbook(s) and/or internet. You can supplement textbook(s) by other sources.

When considering primary and secondary evidence, it worth remembering that the assessment covers students' ability to analyse and evaluate an interpretation (A04); however, as part of your teaching you may wish to look at contemporary sources (A03) as well

Part One: Crown, Parliament, plots and court life

Their job is to find others who agree with them or hold similar views (they might have one or two of the same beliefs on their cards). Students will eventually find themselves in two distinct groups and can then be told that they have formed two political parties.</p> <p>Students assess the King's relationship with Parliament during this time by creating a Venn diagram with MONEY, RELIGION and FOREIGN POLICY for the period of the Cabal Ministry.
