for the guidance of teachers**

**0470 HISTORY**

**0470/43**

Paper 4 (Alternative to Coursework), maximum raw mark 40

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

- Cambridge will not enter into discussions or correspondence in connection with these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2011 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

- Level 3 – Supports valid inferences with reference to the source e.g. The rapid decrease in child workers could indicate a change in the law or a change in the nature of the job; technology appears to have destroyed the hand loom weavers' jobs etc. (5 – 6)
- (ii) Level 0 – No evidence submitted or response does not address the question. (0)
- Level 1 – Agrees OR disagrees, unsupported from the source. (1 – 2)
- Level 2 – Agrees OR disagrees, supported from the source e.g.
- Yes A tremendous increase in output in that one man can now, with a machine, produce as much as 266 did previously; the machines are increasing employment – or at least the speaker thinks so.
- No Workers have lost their freedom and have to work for low wages etc. (3 – 5)
- Level 3 – Agrees AND disagrees, supported from the source. Addresses the issue of 'How far?' (6 – 7)
- (iii) Level 0 – No evidence submitted or response does not address the question. (0)
- Level 1 – Useful/not useful – Choice made on the basis that one source is more detailed/gives more information, but does not specify what information.
- Level 2 – Useful/not useful – One source is statistics and the other comes from a history book about cotton so they could both be biased/unreliable. (2)
- Level 3 – Choice made on the nature or amount of information given. Must specify what information. (3 – 5)
- Level 4 – Choice made on the grounds of reliability.  
Discussion of utility must be made on valid evaluation of source(s) in context. Include at this Level answers that cross-reference between A and B to show reliability. 6 marks for one source, 7 marks for both. (6 – 7)
- (b) (i) Level 0 – No evidence submitted or response does not address the question. (0)
- Level 1 – One mark for each valid detail to a maximum of two e.g. The increasing use of Cartwright's power loom which destroyed hand loom weaving. (1 – 2)

- (ii) Level 0 – No evidence submitted or response does not address the question. (0)
- Level 1 – Identifies the Act e.g. Restricted the hours of those employed under the act of 18. (1 – 2)
- Level 2 – Describes the Act. Award an extra mark to each aspect described in additional detail e.g. Applied to all textile mills except lace and silk; No children under 9 to be employed; 9 hours maximum for children aged between 9 and 13; 12 hours maximum for those aged 13 to 18; no night work for anyone under 18. Government inspectors appointed to see that it was properly applied. (2 – 4)
- (iii) Level 0 – No evidence submitted or response does not address the question. (0)
- Level 1 – Single reason. One for the reason, one for the explanation. (1 – 2)
- Level 2 – Multiple reasons. One for each reason, one for each reason explained e.g. Cost; children small for getting under machines for cleaning and problem solving; women had nimble fingers; women and children paid lower wages and less likely to cause trouble; men had other choices, women far less so etc. (2 – 6)
- (iv) Level 0 – No evidence submitted or response does not address the question. (0)
- Level 1 – Simple assertions.  
Yes, machines were always getting better. (1)
- Level 2 – Explanation of impact of technology OR other reasons for growth, single factor given e.g.
- Tech There was an explosion in the technology applied to the textile industry, and also in the power sources needed for them; better technology meant fewer workers producing more at competitive prices for home and overseas markets; expect examples of both machines and power sources.
- No The factory system also played a huge part in keeping all production under one roof and encouraging supplies in greater amount which reduced costs and meant lower prices; demand appeared for a while to increase exponentially which in turn encouraged further invention and more factories etc. (2)
- Level 3 – Explanation of technology OR other reasons for growth with multiple factors. Allow single factors with multiple reasons.
- OR** Undeveloped suggestions on BOTH sides of the argument (annotate BBB – Balanced but Brief). (3 – 5)
- Level 4 – Answers that offer a balanced argument.  
BOTH sides of technology AND other reasons for growth must be addressed. (6 – 8)
