MATHEMATICS (US)

International General Certificate of Secondary Education

www.papacambridge.com Grade thresholds taken for Syllabus 0444 (Mathematics (US)) in the May/June 2013 examination.

	maximum mark available	minimum mark required for grade:					
		А	С	E	F		
Component 11	56	-	32	22	14		
Component 21	70	56	35	22	-		
Component 31	104	-	64	45	31		
Component 41	130	87	48	29	-		

The threshold (minimum mark) for B is set halfway between those for Grades A and C. The threshold (minimum mark) for D is set halfway between those for Grades C and E. The threshold (minimum mark) for G is set as many marks below the F threshold as the E threshold is above it. Grade A* does not exist at the level of an individual component.

The thresholds for the syllabus are determined first by adding together the thresholds for the components taken by the candidate. A reduction may be made at the higher grades depending on the correlation of the papers. If the maximum raw marks for the components are not in the weighting/relationship specified in the syllabus, a weighting is applied to arrive at the overall thresholds. The A* threshold is calculated using the difference between A and B as a starting point.

The maximum total mark for this syllabus is 200 for the 'Extended' options and 160 for the 'Core' options.

The overall thresholds for the different grades were set as follows.

Option	Combination of components	A *	Α	В	С	D	Е	F	G
AX	11, 31	-	-	-	96	81	67	45	23
BX	21, 41	171	142	112	83	67	51	-	-

Grade Thresholds are published for all GCE A/AS and IGCSE subjects where a corresponding mark scheme is available.
