Total	

This document consists of **9** printed pages, **3** blank pages and **1** Insert.

The extract '**Iron ore prices rise**' will be needed for this question.

- 1 (a) Explain what is meant by primary, secondary and tertiary sectors of production and identify which sectors are referred to in the extract.

[5]

- (b)** What does the extract mean when it says, 'a decline in iron ore prices in real terms'?

[3]

. [3]

- (c) What evidence is there in the extract that the demand for steel from China was a large part of the market?

. [2]

- (d) Explain, using a demand and supply diagram, the change in the market price of ore between 2002-2007.

.....
.....
.....
.....

.. [5]

- (e) Use the information in the extract to suggest what might happen to the price of oil in 2008.

• [4]

- (f) The extract says, 'successful mining companies used these profits to buy competitors in order to cut costs and increase profits even further'. Discuss whether purchase of another company might lead to lower costs and higher profit.

The extract ‘Reduced furniture prices help bring down inflation’ will be needed for this question.

- 2 (a) Why are governments interested in calculating the price index?
